The jury in the inquest into the deaths of seven First Nations youths has made recommendations which your organization may be in a position to implement. Please report back regarding your consideration to implement the recommendations relating to your organization by completing the attached chart, *Responses to Jury Recommendations*, and applying the appropriate response codes. Your response is requested by **June 28, 2017**.

A list of other organizations also requested to report back is provided.

It is important to explain the significance of inquests and consequent recommendations under the *Coroners Act*. An inquest is a public hearing conducted by a coroner before a jury of five community members. Inquests are held for the purpose of informing the public about the circumstances of a death. An inquest does not find fault, blame or legal wrongdoing but rather examines the circumstances of one or more deaths and looks for lessons that can be learned from the death(s) that may contribute to a safer future for the living. Juries often make recommendations based on these learned lessons and, while they are not binding, it is hoped that implemented recommendations will prevent future deaths in similar circumstances.
